SERBIAN FORCES GIVING GROUND

Belgrade Is In Complete Possession of Teutons.

RESISTANCE IS DETERMINED

Berlin Announces That Serbian Efforts to Check Invaders Are Stubborn but Futile and That the Austro-German Armies Are Advancing.

Berlin, Oct. 11.—Although the Serbians are offering determined resistance to the Austro-German invasion it appears from the statement given out at the war office that their efforts thus far have failed. Belgrade is now completely in the hands of the Teutonic forces, as well as the outlying heights to the southeast and southwest of the city. Further east the Serbians were beaten back.

The war office announcement respecting these operations follows:

"Belgrade and the surrounding heights to the southwest and southeast are in our hands. The Serbians also were thrown back further east wherever they resisted. Our troops are advancing."

Dispatches from the Serbian front report that Belgrade was not damaged greatly by bombardment. The city was spared as far as possible, although some private buildings were destroyed.

Serbian rear guards contested the passage through the city streets of the Teutonic forces. Part of the civilian population remains in Belgrade.

MAKING COUNTER ATTACKS

Germans Recapture Several Positions on Western Front.

Berlin, Oct. 11.—German counter attacks on positions in France recently won by the allies have resulted in the recapture of a large section of territory in the Champagne and several trenches near Souchez. In the vicinity of Tahure, captured last week by the French, the Germans regained a strip of territory 100 yards deep over a front of about two and one-half miles. The war office announcement respecting the campaign in the west follows:

"On the heights to the east of Souchez the Germans took several trenches and a machine gun."

"The Germans, by a counter attack reconquered near Tahure, in the Champagne, the territory on a front of four kilometers (about two and a half miles) and 100 meters deep."

MAKES FURTHER PROGRESS

General von Hindenburg Again Defeats the Russians.

Berlin, Oct. 11.—The German effort to capture Dvinsk, on which Field Marshal von Hindenburg is now concentrating his efforts, has made further important progress. The war office announced the capture of Russian positions over a front of nearly five miles, north of the railroad running west from Dvinsk. A violent Russian attack west of the city, in an endeavor to regain the positions lost when the Germans last week made a gap of three miles in the Russian line, was repulsed.

RIFLE STOCKS FOR BRITISH

Two Contracts Being Filled by St. Louis Manufacturers.

St. Louis, Oct. 11.—Two contracts involving a total of \$4,200,000 for the manufacture of rifle stocks for the British army are being filled in St. Louis, it became known.

Officials of two manufacturing companies said they had contracts for more than 2,200,000 rifle stocks and that their plants are working night and day to fill the orders.

HELP FOR WOMEN SMOKERS

City Establishes Secret Clinic for Those Trying to Quit.

Los Angeles, Oct. 10.—Cigarette smoking among women has increased to such an alarming extent in Los Angeles that the police department has announced the establishment of a clinic where women may go secretly and receive treatment.

This treatment, administered by police surgeons, consists in painting the roof of the mouth and throat with a solution that makes the taste of tobacco offensive.

TWO KILLED IN RACE TRYOUT

Columbus, O., Oct. 11.—Douglas Gray of Lima, O., and Clarence Robinson of this city, a negro chauffeur, were killed when an automobile which Gray was tuning up for the Ohio amateur championship 100-mile race skidded and overturned at the driving park track here.

First Meeting of the Naval Advisory Board

This photograph shows the first meeting of the Naval Advisory Board at Washington, Wednesday, October 6.

GOVERNOR HAMMOND.

Takes Active Interest in Minnesota Newspaper Week.

MINNESOTA EDITORS BUSY

"Newspaper Week" Bids Fair to Be a Great Success.

St. Paul, Oct. 11.—This is "Newspaper Week" for Minnesota, the biggest co-operative publicity campaign the state has ever seen. Fathered by the Minnesota Editorial Association, and backed by the state officials, the idea has been introduced by 500 weekly newspapers of the state, which this week are putting it into practice.

Co-operation between the editorial committee, state officials and ready print houses has supplied the newspapers with several pages of matter showing the advantage of Minnesota to the homeseeker.

Each newspaper has printed coupons inviting subscriptions to order extra copies to be sent outside the state and co-operation of real estate agents and business men in each locality has helped to frame up a vast mailing list. Each newspaper will carry articles setting forth the advantages of its county and in most cases these will cover the front page, with the state publicity articles inside.

Governor W. S. Hammond and several other state officers have been enlisted in the work and have written articles which are supplied to all the newspapers, each covering some phase of the state's attraction for the homeseeker.

MAY REQUIRE TEN MONTHS

Dredges in Panama Canal Cannot Gain on Slides.

Panama, Oct. 11.—A careful survey of the slide area in the Gaillard cut reveals the fact that there probably are 10,000,000 cubic yards of earth in motion, which must be taken out by dredging operations before a permanent channel through the cut is possible. This is the conclusion reached by the canal engineers, who concede that there is little hope of opening the waterway, even for the temporary use of shipping, much before the first of the year.

The present rate of wet excavation is 1,000,000 yards a month and at this rate it would require not less than ten months to remove the mass which is sliding into the canal considerably faster than the dredges can take it out.

LATEST WAR NEWS

GREATEST DIPLOMATIC VICTORY

(By United Press)

Berlin, Oct. 11.—Bulgaria's entrance into the war is our greatest diplomatic victory." This statement was made by Count Julius Andrássy, the son of the immensely influential Austro-Hungarian opposition leader and former co-worker with Bismarck. He said, "Bulgaria's entrance into the war means an addition to our ranks and victory to us much sooner." And he also said the Russian victories were responsible for Bulgaria's action at the time.

SUPPLY VESSELS DESTROYED

(By United Press)

Petrograd, Oct. 11.—Two Russian torpedo boats have destroyed nineteen Turkish sailing vessels since Thursday. The vessels were carrying Turkish army supplies.

GERMANS MAKE DENIAL

(By United Press)

Athens, Oct. 11.—The German legation has formerly denied to Greece that Bulgaria was induced to enter the war on account of promises of Greek territory.

HEAVY BOMBARDMENT

(By United Press)

London, Oct. 11.—Heavy bombardment is progressing along the France-Flanders front this morning, both sides claiming small and unimportant gains.

HOSILITIES ARE EXPECTED

(By United Press)

Salonica, Oct. 11.—Fighting between Bulgaria and Serbia is momentarily expected. A hundred thousand Serbians are on the frontier.

ITALIAN ATTACKS FAILED

(By United Press)

Vienna, Oct. 11.—An official bulletin says the Italian attacks during the past few days have failed, the Italian losses being two thousand.

MINISTERS AND STAFF LEAVE

(By United Press)

London, Oct. 11.—The Bulgarian ministers and their staffs have left London, Paris, Rome, Petrograd and Nish.

STILL DISEMBARKING TROOPS

(By United Press)

Athens, Oct. 11.—The allies are still disembarking troops at Salonika.

MANY GERMANS KILLED

(By United Press)

Paris, Oct. 11.—It is stated officially that seven or eight thousand Germans fell in the Kaiser's attempt to recapture the lost positions at Loos and to the north.

MUCH OF CITY DESTROYED

(By United Press)

Athens, Oct. 11.—It is declared here that the Germans in taking Belgrade completely destroyed two sections of the city and threw 2,000 shells into the city.

GERMANS CONTINUE SUCCESS

(By United Press)

Paris, Oct. 11.—Dispatches from Petrograd admit that the Germans are continuing to wrest scattering positions from the Russians in the Dvinsk regions.

THE THORPWOOD SUNK

London, Oct. 11.—The British steamer Thorpwood was submerged and sunk, the crew being saved.

SERIOUS STREET RIOTS

Occur in Moscow

(By United Press)

Berlin, Oct. 11.—Street rioting in Moscow on September 25 resulted in the death of three rioters and the wounding of twelve. Twenty-five police and eight officers were injured. The outbreak developed from a student's strike. The mob barricaded the streets and fought the authorities desperately. A body of a dead student was left in street mud all night.

Rev. Byron Holley

Kills Man in Room

(By United Press)

New Orleans, Oct. 11.—Entering his study at 6 o'clock this morning, Rev. Byron Holley, rector of St. George's Episcopal church, the most fashionable here, shot and instantly killed Lansing Pearshall, a special investigator of the Gould railways, when he encountered him in the room. The minister said Pearshall attempted to draw his gun and says the victim was a stranger. The police are investigating.

Rockefeller

Missed Sunday

(By United Press)

Omaha, Oct. 11.—John Rockefeller, Jr., yesterday attempted to hear Billy Sunday, but the meeting finished before he arrived. Rockefeller said he was sorry, as he admired Billy.

Is President Wilson Planning Surprise?

(By United Press)

Washington, Oct. 11.—Here is evidence for the supposition that Mrs. Galt and President Wilson are planning to surprise the nation. President Wilson slipped away from the White House this morning and bought a big wardrobe trunk. Secretary and Mrs. McAdoo, daughter of the president, were scheduled to leave for the west last week, but have not gone yet. Secretary and Mrs. Garrison are returning to Washington this week instead of next week as previously planned. Mrs. Daniels, visiting in the south, is returning to Washington immediately. Miss Margaret Wilson, believed to be away this week, is returning immediately.

First Dry Sunday in Forty Years

(By United Press)

Chicago, Oct. 11.—Deserted cafes and packed churches and movie shows marked Chicago's first dry Sunday in 44 years. The dregs of the small number of over Sunday arrests which were made.

Approves Recognition of Carranza

(By United Press)

Washington, Oct. 11.—President Wilson this afternoon approved of Secretary Lansing's action in recommending that American envoys of Carranza be recognized and assisted.

Villa Making Last Stand

(By United Press)

El Paso, Tex., Oct. 11.—General Villa is preparing to make a last stand against the Carranza government. Villa is angered against all foreigners, and said foreigners must look to Carranza for protection.

Treating Prohibited London and Vicinity

(By United Press)

London, Oct. 11.—Drink sales have sharply decreased on account of the new regulation prohibiting treating in London and vicinity, a penalty of five hundred dollars fine, or six months imprisonment being imposed for infractions.

Lindbergh Announces Will Issue Magazine

(By United Press)

Little Falls, Minn., Oct. 11.—Congressman Lindbergh, who has come out as a candidate for governor, announced that he will issue a quarterly magazine from Washington, dealing with state and national issues.

GENERAL CARRANZA.

Pleased With News That He Will Gain Recognition.

Photo by American Press Association.

Vera Cruz, Mex., Oct. 11.—General Carranza received with great pleasure the news that the Pan-American conference at Washington had decided to recommend recognition of the party led by him as the de facto government in Mexico, although he pointed out that he had received no official notification to this effect.

PROSPECT OF IMPRISONMENT

Twelve New Haven Men Face Trial in Federal Court.

New York, Oct. 11.—Eleven directors and former directors of the New York, New Haven and Hartford railroad and Edward D. Robbins, general counsel of the road, face trial this week on a charge of conspiring to monopolize the transportation traffic of New England. They are to be called to the bar in the federal court before Judge Hunt Wednesday.

While the trial is one of a number of proceedings that have been directed in the past few years against the New Haven road, involving the question of alleged violation of the Sherman anti-trust law, it is the first under which the directors themselves are brought into the court with the prospect of facing imprisonment. The maximum penalty, if they are convicted, is one year in prison and \$5,000 fine, as provided in that section of the Sherman law known as the criminal clause.

THREE FIREMEN ARE KILLED

Wall Topples Over While Victims Are at Work in Ruins.

Richmond, Va., Oct. 11.—Three firemen were at work among the ruins of buildings destroyed by fire a brick wall toppled over and buried them. R. M. Norment, captain of fire company No. 1, was instantly killed; C. L. Atkinson and W. R. O'Dell were so badly injured that they died soon after reaching the hospital and A. K. Davenport and D. C. Johnson perhaps were injured fatally.

The fire, which destroyed Crenshaw's tobacco warehouse and a dozen other buildings, did damage estimated at \$500,000.

PARLIAMENT TO DISCUSS TREATY

Greeks Will Inquire About Bulgarian Rumors.

REPORT COMES FROM PARIS

Teutonic Powers and Bulgaria Are Alleged to Have Entered Into a Secret Agreement Last July—Bulgaria Is Credited With Securing Large Territorial Concessions.

London, Oct. 11.—An Athens dispatch to Reuters' Telegram company says that the newspaper Hestia confirms the news printed in Paris of the signature of a secret treaty between Bulgaria and the central powers last July.

The correspondent says he also is able to confirm it and adds that the British minister handed the text of the treaty to M. Zaimis the day he assumed the premiership.

"The treaty," continues the correspondent, "doubtless will be the subject of grave debate in parliament when the new government will announce its program and ask for a vote of confidence."

"It is understood the supporters of former Premier Venizelos will give the government just sufficient votes to procure a minimum majority—in other words, they will tolerate it."

The Athens correspondent of Reuters' Telegram company sends the following:

"The Journal Paris learns that a secret treaty was signed by Germany and Bulgaria at Sofia July 17, awarding Bulgaria, as the price of participation in the war, Northern and Southern Albania, the whole of new Serbia and also Greek Macedonia, Saloniki and Kavala."

"A British subject, who has arrived from Bulgaria, expresses the opinion that the Bulgarian government is in a dilemma and will do everything to avoid hostilities."

BALKANS ONLY WEAK SPOT

Allies Claim They Are Holding Teutons on Other Fronts.

Paris, Oct. 11.—The view is entertained in diplomatic and other official quarters that the operations in the Balkans have assumed new and important significance. The Austro-German drive to the Southeast is regarded as a sequel to the French successes in the Champagne and the manner in which the Russians have prevented envelopment of their armies, Germany and Austria, according to this view, are compelled to seek a new field of effort toward the accomplishment of decisive results, as well as for the attempt to break through the enveloping ring of the allies.

It is conceded the Germans have gained substantial successes. Nevertheless, Europe as a whole is a vast theater of war and the entente powers, as a French observer expressed it, are maintaining effective resistance against further German advances through France to the west, through Italy to the south, or through Russia to the east. Thus only one weak spot is left—to the southeast, in the Balkans.

COUNTY OFFICIALS ACCUSED

Two Duluth Men Charged With Misappropriating Funds.

Duluth, Oct. 11.—Joseph T. Nelson, chief deputy county treasurer and cashier, and Gust L. Wedan, assistant county cashier and bookkeeper, were arraigned before Judge Cutting in municipal court charged with misappropriating \$3,140.24 of the county's funds.

Nelson pleaded not guilty and demanded an examination, which was set for Friday.

Wedan, following a confession, waived examination and was held for the grand jury.

Nelson was released on \$3,000 bail and Wedan on \$700.

Wedan, in a written confession to County Attorney Warren Greene, admitted taking \$615 and substituting checks for which receipts had not been written. He said that if more than that is missing some one else is responsible.

Nelson is charged with converting \$2,500 to his use. He denied he had taken any of the money.

\$1,605,225,000 PAID
ON GERMAN WAR LOAN.

Berlin, Oct. 11.—Payments on subscriptions to the third German war loan up to Oct. 7 amounted to 6,420,900,000 marks (\$1,605,225,000).

Fall footwear! These chilly days remind you of high shoes. The popular H. W. Linnemann store invites you to visit its shoe department. Splendid values.—Adv. 1091f

High grade pianos on easy payments. Folsom Music Store, 220 South Broadway.—Adv. 981f

Umbrella on Horseback.
The late Due de Sagan set many a fashion among French dandies, and among others that of wearing a single eyeglass with a very wide black ribbon—a practice followed for many years by Parisians who wished to look smart. In one respect, however, his most faithful admirers refused to follow the duke. This was when he took to carrying an umbrella on horseback. He first indulged in this eccentricity at a race meeting. When a shower came down and the leader of fashion was seen to be holding an umbrella over himself and his horse the sensation was immense. No one ventured to imitate him, however, and finally he abandoned the practice.—Exchange.

PERSEVERANCE.

The gods demand their victims.
Who shall know
What failures time and circumstance compel?
Yet if such doom were mine I would 'twere so
That they would mark my absence thus: "How well
Even unto the last he struggled, lo!
He tore the rudder with him
when he fell!"
—George Cronyn.

Federal Government.

It is a mistake to suppose that the idea of federation in government originated with the framers of the United States constitution. Long before the Philadelphia convention met federalism existed in Switzerland, and the idea when adopted by the Swiss cantons was already an old one. The first attempt at the federal union of states was made in Greece in the instance of the celebrated Achaean and Aetolian leagues (280 B. C.), formed by the Greek states to save themselves from slavery to Macedon.—Exchange.

Living Indelible Ink

If the shell of the *Purpura lapillus* be broken there is seen on the back of the animal, just under the skin, a slender, whitish vein which contains a yellow liquor. When this liquor is applied to linen with a small brush and exposed to the sun it becomes successively green, blue and purple and finally settles into a brilliant unchangeable crimson.

BASEBALL**BOSTON WINS IN NINTH INNING**

Boston, Mass., Oct. 11.—Boston spiked down two victories when they followed their win on Saturday with another victory this afternoon, driving the redoubtable Alexander to cover and shooting in the winning run over the plate in the ninth inning.

As usual, Boston displayed its supremacy in the hitting line by copping 6 hits, twice as many as the Phillies got off Leonard.

The score by inning:

Phila.	001 000 000—1 3 0
Boston	000 100 001—2 6 1

Batteries, Philadelphia, Alexander and Burns; Boston, Leonard and Carrigan.

Umpires, O'Laughlin and Evans, Rigler and Klem.

This was "Dutch" Leonard's first appearance in the premier series. He is generally conceded to be one of the best southpaws in the game. He is one of Carrigan's most dependable pitchers.

Catcher Bill Carrigan is the old man himself, the Red Sox boss. The dope sheet published before the series said that there was a time when Bill had few peers at working behind the bat, but that he had slowed up of late. Carrigan loosened up a few notches in this afternoon's game and showed them the old man was right on the job.

An Indignant Poet.

Beranger, the famous French poet, whose greatest gift lay in writing little poems which he called songs, was particularly dependent upon the chance visits of the muse.

He was once visited by the author and academical Viennet, who said to him:

"You must have written several songs since I saw you last."

"I have only begun one," answered Beranger.

"Only one? I am astonished!" exclaimed Viennet.

Beranger became indignant.

"Humph!" he shouted. "Do you think one can turn off a song as one turns off a tragedy?"

Outlawry.

Outlawry existed in England and Scotland from very early days. Earl Godwin and Hereward the Wake were famous political outlaws. At one time the sentence was used to punish any one who would not pay the "were," or blood money, to the relatives of a man he had killed. In civil proceedings it was abolished in 1879. In the old days an outlaw could be killed whenever or wherever he was encountered, but this part of the penalty was abolished.

A Modern Solomon.

A Philadelphia police magistrate was called on to decide the ownership of a dollar bill which was found in the street by a negro and claimed to have been lost by a white man. After hearing the story of each claimant the court said:

"I believe the dollar belonged to the white man, but since the negro found it he is entitled to a reward. I therefore decree that each take 50 cents and call it a day's work."

Long Time Since Moving Day.
Fulham palace has been the country house of the bishop of London for 809 years.

IN SHAPE FOR WINTER'S WORK

Y. M. C. A. Now Has 492 Members, and More Men Will Make Use of Association Building

HEATING PLANT IS IMPROVED

Will Affect a Saving of at Least Three Tons of Coal Monthly, Other

Y. M. C. A. News

The Y. M. C. A. is getting in shape for the winter's work. There are 492 members now, and with the coming of cold weather more of the men make use of the building, so everything has been put in condition to meet the needs of the members. The most important improvement is a change in the water heating arrangement. Formerly the water for the baths was heated by means of a separate fire, and this necessitated the continuous running of two fires during the winter months. A large coil has just been installed in the fire box of the heating plant, so that the same fire heats the building and the water. It will be necessary to run two fires only on Saturday nights and in the coldest weather the second fire will not be necessary even then. A saving of at least three tons of coal a month will be made.

The work has been picking up very materially the past month, which is very gratifying to the ten directors who attended the regular meeting Thursday night. This is the largest attendance at a directors meeting for some time and shows the interest which the men in town are taking in the work.

The advisability of putting on a high class musical entertainment at the building the latter part of this month is being considered. It is planned to make the social feature of the work more prominent this year, and many believe that an entertainment would be a good way to start.

WHAT WILL I DO

The Brainerd School of Telegraphy Offers a Solution to the Question

We have a solution for the problem now confronting the ambitious young men and women of this and neighboring cities. We refer to those who have completed the grammar grades and also to the high school graduates who find themselves unable to continue their education in professional lines and who are therefore without a means of earning a livelihood. The question which you are asking yourselves is "What Shall I Do." We are here to answer this very question for you and we offer you an opportunity to perfect yourself in a profession which is both profitable and pleasant and which will insure your steady employment. Today the only hope for escape for the unskilled is through technical training and that training must be acquired before a person is too old to hold their own against competition. Our offer is a complete and practical course in telegraphy which we guarantee will fit the student for a lucrative position within six or seven months providing proper application, on the part of the student, is given to the work. As a special inducement to those interested the Brainerd School of Telegraphy will give a week's free tuition in our day or evening class to those enrolling before November 1st. Why not start with our new class going in Monday evening, Oct. 11th? Sleeper Block, second floor.—Adv. 1091f

One Way to Get Water.

Walter F. Reid, the scientist who invented smokeless powder, has led an adventurous life in many lands. His invention of smokeless powder was a result of his experiences among the red Indians, when he relied on his rifle for food. On one occasion Mr. Reid was dying of thirst in the pampas of the Argentine. In his extremity he noticed his horse during the night licking the dew off the vegetation. Then he had an inspiration. He dragged his shirt over the grass until it was saturated, and then squeezed it out. He worked in this way for hours, and in the morning there was enough water to save the lives of both man and horse.—London Standard.

Without Reserve.

Tommy knew that mother had got a special cake for tea and, with an eye to getting his share, asked pleadingly: "Mummy, have I been a good boy this afternoon?"

"M-m-es," replied mother rather slowly, her mind going back to a little incident of the day when Tommy had not shone.

The five-year-old slipped a coaxing hand into hers.

"Please," he begged, "say a whole open yes," mummy."—Philadelphia Record.

WOMAN'S REALM

OPENING MEETING
MUSICAL CLUB

President Mrs. B. J. Broady Extended
Cordial Greeting to Members
and Their Guests

SCHOOL TEACHERS PRESENT

Tag Day Announced for Saturday,
Oct. 16—Rest Room to be
Furnished

The opening meeting of the Brainerd Musical club was attended by a large number of members and their guests. Mrs. B. J. Broady, the president, extended a cordial greeting to all and expressed the wish that the new teachers, the special guests for the day, would all become members of the club. The artists recital offered, which are included this year in the price for membership, are worthy of special note, the first one in the series being the Zoellner string quartet, November fifth.

In place of the Travel class which has been so successfully conducted for several years there will be begun a Civic Study class. This class is under the leadership of Miss Scott and is open to all members of the club. The first meeting will be held next Monday evening at the residence of Mrs. Cobb.

An enthusiastic rising vote was taken in favor of presenting Miss Ella Armstrong in song recital at an early date. Miss Armstrong was among the first members of the club and has been doing notable work in voice culture. The Elks, of which lodge Miss Armstrong's father was a member, have expressed their desire to co-operate in this undertaking.

Mrs. Cobb in behalf of the social service committee, invited members of the club to contribute toward furnishing the rest room at the new city hall. A "Book of Donors" will keep a record of any gift, and it is expected that the women of Brainerd will take a pride in seeing that the room is well and tastefully furnished. Magazines also will be gladly received.

B. J. Broady announced that the following Saturday would be Tag Day undertaken for the purpose of raising funds to retain the services of a visiting nurse all winter. As the \$150 already in hand had been raised largely by the efforts of the club women so he asked them to respond generously in offering to Mrs. J. A. Thabes, the chairman of the committee, their assistance in making Tag Day a corresponding success.

The musical program which followed was listened to with much pleasure.

The selections of Morris D. Fol-

som while not as brilliant as some he has presented before the club were played with his usual good taste and were well chosen to display the possibilities of his touch in delicacy and clearness. Mr. Folsom is an exponent of the Leschetizky method than which there is none superior for the production of tonal quality.

Mr. Broady's first group of songs were four notably charming German Lieder. Mr. Broady has devoted much study to the German Lieder than which there are none more beautiful written and he sings them well, his clear enunciation in German as well as in English being noteworthy. The English songs were bright and original and we would mention the difficulty of "Sing Me a Song" by Homer which was carefully rendered. These songs were new to a Brainerd audience and in presenting them it was interesting to note the progress Mr. Broady is making while continuing his studies in vocal culture.

Mrs. Cobb, the very successful chairman of the program committee of the recent federation meeting in Duluth, told in an informal manner, several interesting incidents of the meeting.

Mrs. Cohen, as delegate, read an excellent and suggestive report which will be quoted at length in an early issue of the Dispatch.

YOUNG PEOPLES SOCIETY

Mr. and Mrs. Iver Benson and Mr. and Mrs. Anderson Will Entertain this Evening

The young peoples society of the Bethlehem Norwegian Lutheran church will meet tonight at the church. Mr. and Mrs. Iver Benson and Mr. and Mrs. Anderson will entertain.

The following program will be given which starts at 8:15 o'clock sharp: Piano solo.....Mr. McComas Vocal solo.....Miss Olive Rotchkies Vocal solo.....Dr. E. E. Long Recitation.....Miss Esther Johnson Vocal solo.....Miss Hannah Swanson Vocal solo.....Miss Mamie Peterson

DRAMA LEAGUE

Papers on German Drama, Sketch of Hauptmann's "The Weavers" to be Read

The Drama league will meet Tuesday afternoon at 3:30 at the home of Mrs. F. A. Farrar.

A paper on German Drama with a sketch of Hauptmann's life and synopsis of his play "The Weavers" will be read by Mrs. Henry I. Cohen.

Church Meeting

A meeting of the congregation of St. Paul's Episcopal church, is called for Wednesday evening, Oct. 13, at 8 o'clock in the guild hall. There will be music and refreshments. Every member of the church and congregation are urged to attend. Important matters will be discussed.

Evangelical Aid

The Ladies Aid society of the Evangelical church of Northeast Brainerd will hold a special business meeting Tuesday afternoon at 2:30 o'clock at the home of Mrs. Hutchison, 421 4th ave. All members are urged to be present.

Missionary Circle

The Womens Missionary Circle of the First Baptist church will meet at the home of Mrs. Albert Angel on South Seventh street at 3 o'clock on Tuesday afternoon.

AMERICAN KILLED IN ACTION.

Star of Annapolis Football Team Went to War to See Biggest Show.

"It's the biggest show in the world," said William Montague Nicholls as he sailed from New York city for England to join one of the volunteer regiments. A recent cable dispatch from the war office to the young man's father, Judge George W. Nicholls, at Spartanburg, S. C., brought the news that he had been killed in action between Sept. 26 and 27.

Montague Nicholls was quarterback on the Annapolis football team in 1911, 1912 and 1913 and was one of the best known athletes at the Naval academy. He resigned a few weeks before graduation because he didn't want to serve in the navy.

On March 21 young Nicholls was wounded in the fighting around Neuve Chapelle and spent several months in a British hospital. Recovering, he again went to the front, and in the drive which forced the Germans back in Flanders he received his fatal wound. Nicholls was a brother of Congressman Elect Samuel J. Nicholls of the Fourth South Carolina district.

Kisses Germless and Pure.

Kisses are 99 per cent pure and germless, New York public health service finds after examining 4,093 persons.

Mrs. Norman Galt

PERSONAL MENTION

Miss Vera Vogan, of Crosby, visited in the city today.

Miss Johanna Wgeishofski returned this afternoon to St. Paul.

Miss Florence Benedict, of Crosby, went to Mankato this afternoon.

Miss Othilla Krekelberg has gone to Park Rapids where she will nurse a patient.

Mrs. P. S. Thayer of Bethel is staying with her son and family, Mr. and Mrs. Armour Thayer this winter.

Mrs. J. E. Hyde, guest of her mother, Mrs. R. B. Miller, returned this afternoon to her home in Minneapolis.

Miss Pearl Gruenhagen was operated on Saturday at the Northwestern hospital for appendicitis and is recovering rapidly.

Miss Elfreda Ilse went to Minneapolis this afternoon to visit her brother, George Ilse, who is attending the University of Minnesota.

Mrs. A. L. Cole, of Fergus Falls, and Miss Murdock of New York city, were guests of Dr. and Mrs. C. A. Nelson. Mrs. Cole is an aunt of Mrs. Nelson.

Mr. and Mrs. B. Maffoffin, who spent the summer at the Alexandria hotel, left Monday for their home in McAllister, Okla. They are the parents of B. Magoffin, Jr., of Deerwood.

Lily Neimi and Elma Salminen of Hibbing, Agnes Alguire of Chisholm,

Minnie Granholm of Virginia and Lily Gilbertson of Brainerd are spending their Saturday and Sunday with their parents.—Normal school notes Duluth Herald.

Mrs. George H. Crosby and daughter, Miss Margaret E. Crosby, of East Superior street, and Mrs. William G. Hegardt and daughter, Miss Gertrude Hegardt, of East First street, left Sunday for Chicago, where Miss Hegardt and Miss Crosby left for Miss Somer's school in Washington, in company with the school chaperons.—Duluth Herald.

CHICAGO MAN ADMITS
MINNEAPOLIS CRIME

Says He Struck Woman Several Times in a Hotel.

Chicago, Oct. 11.—Declaring she had robbed him to give the money to a human harp who was living from her earnings Frank J. Slabb, alias Frank Bell, calmly told how and why he killed Mrs. Catherine Arnold of Tyler, Tex., in a hotel in Minneapolis early last Friday morning. The woman also had relatives at Buffalo, N. Y. Slabb said when he left the room he did not know the woman was dead. He had struck her a few times and pushed her against a dresser and thought she had fainted. He will fight extradition to Minnesota.

Slabb was arrested at his home on a charge of murder, by Detective Sergeants Johnson and Lynch, on instructions from the authorities in Minneapolis.

Scene from "Always in the Way" a great Metro feature with Mary Miles Minter at the Grand on Thursday and Friday.

VISITING NURSE

Brainerd women sold enough Red Cross Seals to secure \$150.00 from the State Board of Health to be used for employing a visiting nurse. This money must be used for that purpose by January 1st, 1916, or else returned. It was raised in Brainerd, let's spend it in Brainerd.

REMEMBER TAG DAY
Saturday, Oct., 16, 1915

and help us raise enough additional to employ a visiting nurse this winter.

U. S. Mail Routes Growing

Washington, Oct. 11.—Motorization of the rural free delivery system in the United States has been started with more than 250 auto routes established between July 1 and today, and 250 others to be put in operation by Dec. 1, the postoffice department announced.

Better service for less money to the public and better positions financially and otherwise for the carriers, are the reasons upon which the department based the motored-mail-route policy.

There were Oct. 11, these routes already running:

Arkansas 1, California 23, Colorado 2, Delaware 1, District of Columbia 2, Florida 13, Georgia 68, Illinois 3, Indiana 14, Iowa 24, Kansas 3, Louisiana 1, Mississippi 2, Nebraska 1, Oklahoma 91, Pennsylvania 15, and Texas 24.

By Dec. 1, there'll be 14 in Alabama, Arkansas 4, California 29, Colorado 3, Delaware 20, District of Columbia 22, Florida 22, Georgia 127, Illinois 3, Indiana 14, Iowa 40, Kansas 3, Kentucky 3, Louisiana 1, Maryland 3, Mississippi 3, Nebraska 1, Oklahoma 156, Oregon 3, Pennsylvania 16 and Texas 59.

Burlison says these autos will improve the farmer's mail and express facilities. He says time schedules are better and weather doesn't effect autos so much. He says an auto can do 50 to 60 miles a day, regular schedule.

He's going to pay these auto carriers \$1,800 a year and make them supply their own cars and uniforms. He's going to adopt a regular style of auto and uniform. Carriers on wagon routes get only \$1200.

There's a carrier in Kansas using an auto on a 30 miles route who's been getting \$1200 and who's going to get \$1800; and he says the raise will more than meet his expenses, even when a good many miles have been added to his route.

How an Engineer Keeps Well

Railroad engineers are more exposed to catching cold than other workers. E. G. Dunaphant of Monette, Mo., has run a Frisco engine 25 years and all the medicine he has taken is Foley's Honey and Tar. He writes: "I always keep it in my house and recommend it to all who have a bad cough or cold." H. P. Dunn, druggist. mwf

PREACHES FIRST SERMON IN CITY

Rev. F. W. Hill of First Methodist Episcopal Church Assumes Local Pastorate

MADE A RECORD IN ST. CLOUD

Church Membership Increased There and Fine Church Building Erected

Rev. F. W. Hill of the First Methodist Episcopal church, began his pastorate yesterday by preaching both morning and evening. It is a coincidence that Rev. Hill was ordained as a preacher in this church

Methodist Episcopal Church at St. Cloud, built during Rev. F. W. Hill's pastorate

by Bishop Cranston when the conference met in this city in 1903.

The membership of the church is very optimistic as to the result of the new pastorate. All departments of the church are in good shape and the church is prepared for a formal step including the completion of the building which it is hoped to accomplish next year. Rev. Hill has made a record for himself in leading churches through big programs. Rev. Hill was well received yesterday and his congregations were well pleased with the sermons he delivered. Rev. and Mrs. Hill are moving into the parsonage today.

A GOOD DIRT ROAD

R. B. Millard of Little Falls Praises Belle Prairie Road, Built at Cheap Cost

Little Falls Transcript.—That the dirt road built by Commissioner Rocheleau north of the city with the county's new tractor is the best all-dirt road and one of the cheapest between the Twin cities and Bemidji is the opinion of R. B. Millard, secretary of the Commercial club. Mr. Millard's opinion carries much weight as he travels extensively by automobile over the central and northern portions of the state and is in a position to know.

Mr. Millard is seconded in this opinion by T. C. Bordon, secretary of the Little Falls Automobile club, who also has praise for the stretch of dirt road between Little Falls and Royalton and thinks it is just as good as the north road, but no figures on its cost are as yet available. It was built under the supervision of Commissioner Lakin, the road tractor being used.

The following story on the north road was written by Mr. Millard for the Transcript:

The other day Commissioner Rocheleau stopped me on the street with the remark, "Say, Mr. Millard, how much do you suppose the work of building 1½ miles of dirt road between Little Falls and Fort Ripley cost the county this summer?"

When I told him that I did not know, he gave me the following figures:

Grading with tractor 11½ miles. \$1,836.55, or \$159.79 total cost per mile. The state pays 85 per cent under the Dunn law, or \$1,561.07. Morrison county pays 15 per cent or \$275.48. Or we pay \$23.95 per mile for the splendid dirt road north of our city.

This road is the best all-dirt road between Bemidji and the Twin cities. As this stretch of new-made road is maintained by dragging, it does not require surfacing with gravel or clay.

The above figures do not include the cost of the tractor and the graders, these cost the county some \$4,500. However, this should be counted an investment and not an expense.

The commissioners of Crow Wing county came down and saw the tractor at work. They have promised Commissioner Rocheleau that they would build in the summer of 1916 the same kind of road from Barrows and meet ours this side of Ft. Ripley, to which town our good road will be built this fall.

This splendid piece of road is a credit to Morrison county. When roads such as this can be built for a total cost of less than 175 per mile and a direct cost to the county of less

than \$25 per mile, we should have good roads and plenty of them.

Taxes are no higher on account of roads of this kind, although land values are raised and all farming land near by benefited.

The county commissioners should be complimented for the stand they took in buying the tractor and graders. The result has amply justified the investment.

To Commissioner Rocheleau belongs the credit for this good road. It was he who became convinced of the value of a good road-making outfit such as we now have. For over a year he talked machine-made roads. Some encouraged him, others did not. Now that he can show a net direct cost to the county of less than \$25 per mile for these roads he is entitled

IRRIGATED LANDS TOO EXPENSIVE

Only the Rich Can Buy Farms From Government.

MONEY LOST IN THE PROJECT

Seems Likely That the Country Will Finally Give the Land Free to Those Who Wish to Settle There—West Preparing to Give Support to a Popular Republican Candidate.

By ARTHUR W. DUNN.

Washington, Oct. 11.—[Special.]—Unless something is done to change the conditions it is possible that the irrigation projects in the west may prove only halfway successful. It is said that only about half of the lands which can be irrigated by the government projects have been taken by intending settlers. This will mean a considerable loss to the government, as the cost of constructing the irrigation plants and their operation was expected to be paid for out of the sale of lands to settlers and their use of the water.

It is not known whether the terms of sale and cost of the water to settlers are too heavy to attract farmers to these projects or whether there is a lack of desire on the part of people to engage in farming that has prevented the occupancy of these lands by settlers.

Very Expensive Farming.

It is known that many people have thought that the cost of the projects have been so large as to make the expense to the settlers considerable. Much more than many persons can afford. It has been said that only well to do men with means can afford to engage in farming on these irrigation tracts and that they do not offer the opportunities afforded the men who settled the west and occupied the arable farming lands.

It is reported that a disinclination on the part of people to live on farms, the hard work it means for the men and the lonesome life for the women have a great deal to do with retarding settlement on the irrigation projects. But as most of these lands are sold in small lots and the farmhouses would naturally be close together the lonesome argument is not conclusive.

Free Homes the Solution.

Just as the government finally decided that it would not compel settlers on ceded Indian lands to pay the treaty price, but gave them to the settlers as other lands had been given in the past, so it seems that in the end the government will give the settlers on the irrigated lands free title, charging them only for the cost of supplying the water. That proposition will be made to congress at an early day, and the probabilities are that the government will pay for the cost of building the plants, as it paid the Indians for their lands.

Weeks in the West.

Ralph Cameron, who represented Arizona as a delegate for several terms, says that in the west the Republicans are going to look for a presidential candidate who is sound on the tariff. After going into details about the losses the west has sustained on account of the reduction of tariff rates he says that Senator Weeks of Massachusetts seems to fill the bill and predicts that most of the western states will send delegations favorable to him to the next convention. Cameron served in the house with Weeks and is no doubt personally inclined toward him.

Morris Sheppard Vindicated.

They made a lot of fun of Senator Sheppard about his "buy a bale of cotton" propaganda last winter, but it appears now that Morris is vindicated. Those who bought a bale of cotton have been able to sell it at a profit, and so they not only helped the southern planter, but they made something on the side.

Might Do Worse.

The Republican party might do worse than to nominate former Governor Hadley of Missouri. He would make a mighty good run for the presidency. But they should not make the mistake of trying to say that he could have been nominated at Chicago in 1912 if Roosevelt had permitted it. The facts are that only one of two men could have been nominated at Chicago unless both had mutually agreed to get out. It was a cinch from first to last that if either Taft or Roosevelt let go the other would be nominated. There was no chance for a compromise at any time unless both agreed to get out of the way, something neither would do.

Lost T. R.'s Confidence.

Talk about former Governor Hadley for the Republican nomination will probably revive stories of how he lost the confidence of Colonel Roosevelt at Chicago. It happened when he was making the strongest possible fight for the colonel as his floor leader in the convention. His straightforward and manly utterances aroused the convention and spectators to a high pitch of enthusiasm, and they cheered him vociferously. That started talk about him as a "compromise possibility," and from that time forward he was under suspicion.

The talk of Borah as a compromise candidate also placed him under suspicion, although Borah had been the best fighter Roosevelt had on his side during the contest before the national committee.

BREAKING OUT OF ENGLAND

By ED. L. KEEN

United Press Staff Correspondent London, Sept. 18 (By Mail).—The open season for spies is on. Presumably on account of the gigantic preparations of both countries for the long-delayed "big push" in Flanders, never since the war began have anti-espionage activities by England and Germany been so thorough.

Every traveler to or from Holland is watched. He is guilty until he proves himself innocent. If he escapes the English or the Germans, he may be gathered up by the Dutch, they being considerably peeved at the use of Holland for spydom's clearing house.

Suppose you were a spy. How would you go about it and what would be your chances of getting away with it?

Here is the story of a make-believe spy, who recently made the round trip from London to Berlin.

An American newspaper man, he was going on a perfectly legitimate mission. He was properly neutral. But that is precisely the role spies assume. They fake an "American accent," travel with a forged American passport, and make a noise like a real journalist.

Potentially he was a spy. He didn't carry any incriminating documents. Neither does a clever spy. But he had a lot of information mentally bottled that would undoubtedly have been of aid and comfort to the Germans. He was reasonably sure he would meet folks in Germany from whom he could get information equally useful to the English.

As a spy, he would have played the newspaper game because, so far as he knows, that hasn't been tried recently. The fact that he had the hardihood to undergo the scrutiny to which newspaper men especially are subjected might throw the authorities off the real scene. A spy wouldn't take such chances—unless he were clever.

He didn't advertise the fact that his destination was Berlin. When he applied at the British Home Office for his permit to depart, (required of all travelers to the continent these days,) he said he was going to the Hague. This was true—but not all the truth.

He was thoroughly questioned by the Home Office as to why he wanted to go to the Hague. He told the truth, and apparently they seemed satisfied.

At Tilbury, whence sail daily steamers for Flushing, came the real inquisition. He was questioned and cross-questioned separately by six officials; inspectors of aliens, Scotland Yard "bulls," and an army colonel. After a long wait, during which his inquisitors compared notes, he was sent to the customs house for baggage examination.

His story had apparently held water. It was true—but it might not have been. Only one of the six inquisitors suspected he was headed for Germany.

"Now, look here," observed this particular sleuth, with a third-degree gleam in his eye, the (journalist had denied it four times,) "you know you intend going to Germany, don't you?"

"No, I don't," replied the suspect, adding with an air of guilelessness, "but I might. My present destination is the Hague, and it depends entirely upon circumstances whether I go on to Germany. Frankly, I wish to feel free to visit Berlin" (mental reservation)—"and I will, if the going is good." It was shortly after the Arabic sinking, and he was by no means sure that he or other strange Americans would be welcomed in Germany. The sleuth's suspicions were lulled by the suspect's frankness.

Then the "luggage" inspector. Same questions. Same replies. The traveler started to get out his keys. The inspector gave him the once-over, "Never mind; I fancy you're all right," and chalked his initials on the bags. Not only that, but he carried them to the gang-plank, himself.

The traveler has successfully played his role of potential German spy. Neither his baggage or his person had been examined. Both might have been loaded with "dope" for the Germans.

Others were not so successful. These sleuths have made some fine hauls in the last few weeks.

It is only one man's experience, but it should be borne in mind that his inquisitors at Tilbury had only his own word for his identity, profession and purpose, besides his fakeable passport. He avoided taking special credentials—just to make it harder.

Dropping his imaginative character of pro-German spy, the traveler, as the steamer started across the mine-strewn North Sea, shamelessly switched his allegiance and pretend-

HOW TO SECURE

This \$350 Piano FREE

Cut out the coupon at the bottom of this advertisement, fill it in properly, mail or bring it to our store. Then buy your goods at our store, get your friends to buy, and have your friends get their friends to buy. Collect all their certificates and place them to your own credit in our store ballot box. With your friends' help you can secure several hundred dollars' worth of certificates every week. The piano will be given to the one securing the greatest number of certificates between now and April 1, 1916.

Our Prices Will Remain as Low as Ever

Come to the store today and see the piano. Play on it—test it, then enter your name in the contest and commence saving certificates.

ed himself a pro-British spy, just to see how the Germans would handle him.

Strict Women Who Love.

The strictest women are at times the most loving. When this happens their attachment is as strong as death, their fidelity as resisting as the diamond. They are hungry for devotion and altruist for sacrifice. Their love is a piety, their tenderness a religion, and they triple the energy of love by enshrining it as a duty.—Henri Frederic Amiel.

\$100 REWARD WTM

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

M. T. DUNN CALLED TO HIS REWARD

Prominent Banker and Public Heart-ed Citizen Passed Away at Eight O'clock This Morning

WAS TREASURER OF STATE FAIR

Mayor of LeRoy for Six Years. Funeral will be at Brainerd 9 o'clock Wednesday Morning

Calmly and peacefully and in full consciousness Martin T. Dunn was called to his reward this morning at his home, 499 North Fourth street. About him stood the members of his family and tears covered down their cheeks as they thought of the valiant battle for life which the patient had waged, of how uncomplainingly he had suffered for months. To the last his courageous spirit did not leave him.

Mr. Dunn, or "M. T." as he was known all over Brainerd, was a man of the people. He made friends and held them. He worked his way from the farm to greater heights almost unaided. His business keenness, his activity in commercial life, made him a factor in LeRoy, in southern Minnesota and when he came to Brainerd his acquaintance in central and northern Minnesota was widened. Mr. Dunn was born in 1863 in Janesville, Wis. With his parents, John and Mary Dunn he removed to Rice county and there on a farm he spent his early childhood. He attended school at Faribault and later a business college.

At Faribault he was employed in the general store of T. J. McCarthy. He traveled as a salesman on the road a period of a year and a half.

In Kenyon he established a general store and later removed to LeRoy where he engaged in the banking business, the First State bank of LeRoy, in which he still has interests.

He came to Brainerd at the time of the re-organization of the Northern Pacific state bank nine years ago and was elected president of the new Citizens State bank and his business acumen rapidly made this bank one of the influential ones of the city. In June 1896 he was married to Miss Ana M. Murphy. He is survived by the widow and three children, Miss Emily A. Dunn age 18, Harold J. Dunn aged 14 and Martin T. Dunn, Jr., age 13.

Mr. Dunn was prominent in public life. He was mayor of LeRoy six

years. In Brainerd he was president of the water and light board six years and his report, published at the time his term of office terminated, was a model showing actual accomplishments of the board and presented a financial statement which is a course of pride to every citizen.

He was a member of the state bankers executive committee. He served as treasurer of the state fair one term. Of a public spirited nature, he worked unceasingly to advance the cause of Brainerd as a whole and gave time and money when they were needed.

He was a member of the Knights of Columbus of Duluth, of the Woodmen and Elks of Brainerd. He worshipped at St. Francis Catholic church.

His relatives are two brothers, Postmaster H. P. Dunn of Brainerd, and J. S. Dunn of Kenyon. His sisters were Mrs. William Thierman of Cannon Falls and Mrs. Charles Peasley of Faribault.

The funeral services will be held Wednesday morning at 9 o'clock from St. Francis Catholic church, Rev. Father J. J. O'Mahoney officiating.

Mr. Dunn was a man of the people. A keen judge of human nature, he could scan the face of a new applicant for a loan and almost read there the kind of a man the borrower was. And rarely did he make a mistake. A hale and hearty nature, he always had a cheery greeting for every friend.

His death was due to heart and kidney trouble. Last year a trip to the coast served to stay the malady. This year he remained in Brainerd and in the early summer was hopeful of entirely regaining his health.

On July 3 he was taken very sick and took to his bed. For a period he was at St. Joseph's hospital where everything possible was done for the patient. He was then removed to his home and there in the family circle he passed to his reward.

To the sorrowing family the sympathy of the community is freely extended.

Card of Thanks

We desire to express our sincere thanks to our many friends for the kindness shown us during our bereavement in the death of Mary Hughes, the beloved wife of John Hughes, also for the many beautiful floral offerings.

JOHN HUGHES,
MRS. EDWARD FINNERTY,
MRS. EDWARD LIEN,
MRS. EDWARD HUGHES.

WM. H. LAWRENCE CALLED TO REST

Well Known Engineer of the Northern Pacific Railway With Company Thirty Years

MEMBER GRAND ARMY POST

Served in Indiana Cavalry Volunteer Company With Distinction in the Civil War

William Henry Lawrence, aged 71, died Sunday night at a local hospital, members of his family being at his bedside when he passed away.

Mr. Lawrence was one of the oldest railway men in point of service on the Northern Pacific system. For thirty years he was connected with the road, first as fireman and then engineer and "Bill's" cheery smile and hearty greeting were known to all the yardmen in Brainerd. He was one of the most careful engineers on the road and no rolling stock in his care was ever bumped out of shape. He guided his engine so carefully that Lawrence's caution became proverbial.

And not alone in railway work did he distinguish himself. Back in the early days when Lincoln called for men to fight the battles of the north, Wm. Henry Lawrence responded. He enlisted as a private under Capt. Gilbert H. Neeland, in company E, 4th regiment Indiana Cavalry Volunteers on January 20, 1863, and served with distinction, being discharged July 32, 1865. He was a member of the local Grand Army Post. A treasured picture at the Lawrence home is a daguerreotype of Mr. Lawrence, with his saber at his side and dressed in his full regimental costume. He was but a lad of 19 at the time.

He married Miss Mary Frances Curran November 2, 1868, at Michigan City, Indiana. Theirs was a courtship and romance which started when they learned their A. B. C's. in the primary department of the school they attended. They were schoolmates, playmates and lovers.

At Michigan City Mr. Lawrence, by successive promotions, became yardmaster for the Michigan Central railway. He served with credit in that position. The family came to Brainerd in 1886. To them ten children were born. Five are living, Miss Lillian E. Lawrence, Mrs. F. N. Johnson, Miss Marie F. Lawrence of Brainerd, and H. R. Lawrence and A. J. Lawrence of Pasco, Wash. A brother, George Lawrence, and sister Mrs. Mary Oney live in Michigan City, Indiana.

Mr. Lawrence was a member of the Brotherhood of Locomotive Firemen and Engineers of Duluth. He attended the Presbyterian church. The funeral will be held on Thursday afternoon from the residence, 1011 Kingwood street, at 2:30 o'clock and from the First Presbyterian church at 3 o'clock, Rev. W. J. Lowrie Lowrie officiating, assisted by Rev. G. P. Sheridan.

Bravely bearing the loss of her husband is Mrs. Lawrence, who herself has been very sick with inflammatory rheumatism for the past two years and is unable to move about unless wheeled in a chair.

To the family is extended the sincere sympathy of the community.

WAR NEWS ONE YEAR AGO TODAY

Germans violently attacked the entire French front, with desperate fighting at Lassigny, Lens, Lille, Apremont and the Meuse. The French finally held taken and retaken trenches. Germany claimed victories. The Germans entered Ghent, bombarded Rheims and resumed the Wovre artillery engagement, also claiming 13,000 British fled from Antwerp to Holland after blowing up 10 forts. Russians abandoned the siege of Przemyśl, Austria said, and fled toward the Vistula, leaving many taken prisoners. The Russian armored cruiser Pallada was torpedoed by Germans in the Baltic Sunday, Russia admitted. German aeroplanes bombed Paris, but the bombs didn't explode.

How to be Efficient

Nothing saps the vitality like kidney trouble. It causes backache, headache, stiff joints, sore muscles, "always tired" feeling, rheumatism and other ills. To be efficient, you must be healthy. Foley Kidney Pills strengthen the kidneys, help them do their work of filtering out from the system the waste matter that causes the trouble. H. P. Dunn, druggist.

The Black Ostrich.

The black ostrich stands seven feet high. Its speed is that of a horse, and it can easily carry a man.

"SURPRISE PARTY"

William Canan Surprised by His Friends and One of Them Turns Out Some Poetry

William Canan was given a surprise party the other evening and a friend gave the news in verse form: A large crowd gathered to meet William Canan on Kingwood street. The occasion it happened to be Oct. 9, the host's anniversary. A treat from here and some more from there Made the menu a sumptuous affair Progressive 500 was played at the feast. No prizes were given at this big meet For all of those present could not be beat.

DISTINGUISHED VISITORS HERE

Community Dinner at Gardner Auditorium Tonight Promises to be Entertaining Function

MOVIE PICTURE MAN AT WORK

Plot Interwoven About Brainerd Business Houses and Scenery, Fatty Woods Starring

The afternoon train brought to Brainerd an imposing array of notable speakers who will regale the diners at the "Community Dinner" at Gardner auditorium tonight with their eloquence.

These include Hon. Julius Schmal secretary of state, Wm. Harris, merchant prince of Minneapolis, Ex-Congressman Fred Stevens, President Worst of Fargo, N. D., and others, to which will be added a number of addresses by local men.

A chicken dinner is to be served. Members and officers of Farmers clubs of the county arrived in the city in the afternoon and will attend the dinner. Col. Freeman Thorp came down with a lot of his precious "Everbearing" strawberries, each one a meal for a small family. Think of Minnesota strawberries when snow has touched this mundane sphere. The movie man was busy today. He snapped pictures of Brainerd's busy streets, business establishments, shops, mines, etc., and tomorrow visits the country. And there is a plot to the pictures.

Here is Some of the Plot

Fatty Woods is the star, and when he plays close up you don't see much scenery. You just see Tom Wood. Dressed as Farmer Cornstassel, Mr. Wood walks and drives about Brainerd. He draws a fat roll from the bank and a pickpocket eliminates the roll. Fatty goes about town pursuing chasing stuff at various stores and then when it comes to pay finds that his money is missing. Then comes the exciting search for the pickpocket, the chase in automobiles, the villain's arrest by Officer DeRoche. In the end all is happy and Fatty recovers his money and is so tickled that he buys Jim Elder's farm near Brainerd.

GERMAN SHIP IS TORPEDOED

Lulea Sunk by British Submarine Near Gledser Lightship. London, Oct. 11.—A Copenhagen dispatch to Reuter's Telegram company says the German steamer Lulea of Luback has been torpedoed by the British submarine E-19 near Gledser Lightship. A boat came ashore near the lighthouse Saturday night with eleven members of the Lulea's crew. The crew of twenty-one men was given time to enter boats.

TWO KILLED UNDER AUTO

Three Other Men Injured When Machine Is Wrecked. Aurora, Ill., Oct. 11.—Herman Prange of Milwaukee was cut severely about the head and suffered injuries to his back and William Witte, also of Milwaukee, was seriously cut about the head and body in an automobile accident south of here, in which two men were killed and another injured. The machine, driven by Gold Williams of Chicago, rolled over several times and landed in a cornfield. The dead are Gold Williams, manager of a cement company, and V. M. Paterson, proprietor of a garage, both of Chicago. B. A. McDonald, also of Chicago, was severely injured about the head.

New Puritan Hats

The puritan hat is the latest in chic millinery. True, every woman cannot wear it but it is very stylish for those who can.

Then we have other shapes just as new for those who prefer other styles.

Not the least attraction of our millinery are our popular prices. We specialize upon hats from \$2.50 to \$5 as well as better ones.

"MICHAEL'S"

CATHOLIC KNIGHTS BANQUET OCT. 12

Columbus Day to be Appropriately Observed by the Local Council Tomorrow Evening

M. D. CLARK TOASTMASTER

Plates Provided at Present for 150 and Number May be Increased by Visitors

The anniversary of the discovery of America is observed as Columbus Day by the Knights of Columbus and the occasion is made a holiday. Local Catholic Knights will celebrate the anniversary by appropriate ceremonies including a banquet and addresses at their hall in the Citizens State bank building tomorrow evening at 7:30 o'clock.

Plates have been provided for 150, but the many visitors from Deerwood, Staples and other points are expected to largely increase the attendance. W. T. Larrabee is the caterer and a satisfying menu will be provided.

The program of addresses and vocal and instrumental selections includes these:

Toastmaster.....M. D. Clark
Corney Solo.....Prof. Wm. Graham
Address, "The Knights of Columbus".....Rev. John Crean
Vocal solo, selected.....Mrs. M. D. Clark
Remarks.....G. H. Cashman, Staples
Vocal solo.....S. F. Alderman
Oration, "Christopher Columbus".....Rev. J. J. O'Mahoney
Violin solo.....Julius Witham
Vocal solo.....A. C. Mraz

MOTHER DON'T TAKE CHANCES IF CHILD'S TONGUE IS COATED

If Cross, Feverish, Sick, Bilious, Clean Little Liver and Bowels

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish, stomach sour.

Look at the tongue. Mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation, poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftentimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs" which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Company."—Adv.

HOT BATTLE WITH GUNMEN

One Alleged Bandit Is Dead and Police Chief Wounded.

St. Paul, Oct. 11.—Shot in the back during a pitched battle between four gunmen and the police force of Carlingford, N. D., Chief Carl Nelson was carried into St. Paul on a special train over the Soo line.

At St. Luke's hospital, where he was operated on immediately after arriving, his condition is said to be critical.

As a result of the battle one alleged highwayman known as Chicago Blackie and believed to have been the man who shot Nelson is dead, two others have been captured and the fourth has been wounded, although he is still at large. Two members of the sheriff's posse also were wounded.

Sloping Shoulders and Sleeves

Conform to the shoulders without wrinkling under arms.

Perfect Shoulder-Stay

Keeps garment from stretching across the shoulder, and holds sleeve in place.

Curved Armhole

Brings arm seams to the natural curve of the shoulder and holds garment snugly and smoothly up under arm, doing away with unnecessary cloth.

Three-Cornered Gusset

Is so shaped as to relieve the usual strain at the thigh. Insures greater comfort and longer wear.

Low-Neck Sleeveless Suit

Just as a woman is fuller across the bust than the back, so this garment is made with extra fullness in front.

Patent Seat

This consists of a plait on each side of the back, instead of extra cloth in the middle where it causes discomfort. Always stays closed and allows sufficient room, sitting or standing.

"MICHAEL'S"

Etiquette of Letters.

Eighty years ago the etiquette of letters was far more rigid than now. Even the twopenny post was not considered good enough for correspondence addressed to persons of any standing. In her "Reminiscences of an Octogenarian" Miss Louisa Packe tells us that when her father had occasion to write to Londoners in his own class of life the letter was always conveyed by a servant not for any reasons of urgency, but because the post was considered a vulgar medium of communication for persons residing in the same city and only to be used for the conveyance of letters to the country.—London Chronicle.

Girl of Twenty Deputy Sheriff.

Patchogue, N. Y., has the first woman deputy sheriff in Suffolk county in pretty twenty-year-old Miss Frances Seltz. She is a daughter of Albert Seltz, Patchogue business man, and was appointed by Sheriff Odell. The new deputy, a sufrage worker, weighs only ninety pounds, but is an expert shot. She said, "Evildoers had better not take any liberties with me."

SPECIAL NOTICE TO BRAINERD FOLKS

We wish to announce we are exclusive Brainerd agents for the simple mixture of buckthorn bark, glycerine, etc., known as Adler-Lika. This remedy, used successfully for appendicitis, is the most THOROUGH bowel cleanser we ever sold. It is so powerful that ONE SPOONFUL relieves almost ANY CASE of constipation, sour or gassy stomach. Adler-Lika never gripes, is safe to use and the INSTANT action is surprising. Johnson's pharmacy.—Adv.

CARRANZA WILL BE RECOGNIZED

United States May Act Within a Few Days.

OTHER NATIONS IN ACCORD

Argentina, Brazil and Chile Also Will Notify General Carranza They Regard His Party as the De Facto Government in Mexico—Villa Followers Will Continue the Revolt.

Washington, Oct. 11.—Official advice has been received here that the governments of Argentina, Brazil and Chile are in accord with the decision of the United States to grant recognition to the party led by General Carranza as the de facto government in Mexico.

It became known that some of the South American governments long before Saturday's conference had authorized their diplomatic representatives to favor the recognition of General Carranza in the pan-American deliberations.

President Wilson has received from Secretary Lansing a report of the proceedings of the final conference, but several days ago he indicated to the secretary his acquiescence in the plan proposed.

The form in which recognition is to be accorded has not been decided, but it may be done by formal notification to Eliseo Arredondo, authorized representative here of the Carranza government. Extension of recognition is expected within a week.

This will result in the immediate order of an embargo on arms against factions opposed to the Carranza government, a step which will materially weaken the resources of the Villa element, which intends to continue the fight in Mexico.

Miguel Diaz Lombardo gave out a statement in behalf of the Villa faction, declaring that while it was a source of satisfaction that the United States had shown its sympathy with the Mexican constitutionalist revolution against Huerta by recognizing a revolutionary faction nevertheless it was intended to demonstrate by further military operations that the Carranza party's supremacy was temporary.

SLAYS CHILDREN AND SELF

Tragedy at Scranton, Pa., Follows Domestic Jangle.

Scranton, Pa., Oct. 11.—Robert M. Orr, thirty-seven years old, a carpenter's foreman, shot his two children and himself to death at their home here. His wife found the three bodies when she returned to the house with policemen.

Fifteen minutes before Orr had knocked senseless his aged father-in-law, Henry Rawson, who denounced Orr for kidnapping the children Friday night. The husband had just returned and was embracing his wife when the trouble started. He threw Rawson into the rear yard. Orr hit Rawson with a blackjack and grabbed the children. He went into the house and locked the doors, his wife fleeing for help. The bodies were found in a second floor bedroom.

SUNDAY LID PRETTY TIGHT

Mayor's Orders at Chicago Are Generally Observed.

Chicago, Oct. 11.—Saloon, hotel and restaurant bars were closed here for the first Sunday in forty-four years. Mayor Thompson's order of a week ago was in conformity with a state law, which had almost been forgotten by its nonobservance. The 7,152 saloons of the city and the restaurants and hotels have been operating their liquor privileges under a city ordinance, requiring closure only between the hours of 1 a. m. and 5 a. m.

According to police reports the order of the mayor was generally observed. Instances of places in widely scattered parts of the city opening side doors for admittance of a favored few were reported, but these instances were comparatively rare.

GUN BATTLE FATAL TO ONE

Spectacular Duel Between Italians Occurs at St. Paul.

St. Paul, Oct. 11.—One man is dead, another is in the City hospital with the bones in his right leg shattered by a bullet and a third is held at Central police station on a charge of murder as the result of a spectacular shooting duel in an open space near Phalen creek and Hopkins street. Police are inclined to regard it as a Mafia or black hand deed.

Frank Bertucci, a laborer, is the dead man. Antonio Fogallo, a Northern Pacific section hand, with a wife and five children, is charged with the murder. Fred Rocco is the injured man at the City hospital.

Five shots were fired, according to the police.

Bank Cashier Slain by Burglar. Clarksdale, Miss., Oct. 11.—A. H. Cagle, cashier of the Planters' bank here, was shot and killed in an encounter with a burglar who escaped.

ANNUAL NAVAL WAR IS OVER

Attacking Fleet Effects Landing at Philadelphia.

Washington, Oct. 10.—The United States has been invaded. The attacking fleet in the big naval war game effected a landing in Delaware bay, thus ending the war, and the whole fleet, including victorious invaders and defeated defenders, is en route to Newport.

Although defeated the tactics of the defenders were the subject of satisfaction. The invaders were satisfied with effecting a landing on Delaware bay, technically capturing Philadelphia and nearby cities and League Island navy yard.

LOWER THAN PRIVATE YARDS

Government Plants Submit Bids on Torpedo Boat Destroyers.

Washington, Oct. 10.—The Mare Island and Norfolk navy yards have submitted lower estimates for the construction of the six torpedo boat destroyers authorized at the last session of congress than have the private concerns that bid.

The Mare Island estimate for one vessel is \$762,368, or \$50,000 less on each if two vessels are constructed there. The Norfolk bid is for one vessel at \$706,305.

TO BOYCOTT BANKS LENDING TO ALLIES

Minnesota German-American Alliance Takes Action.

St. Paul, Oct. 11.—Maintaining that they are strictly neutral, but keenly critical of every act of the United States government which might injure the cause of Germany, 150 members of the German-American alliance of Minnesota, in annual convention at Turner hall, adopted resolutions protesting against the sale of munitions of war and the flotation of the \$500,000,000 loan to the allies.

They pledged themselves to take immediate steps to get from their congressional representatives "a binding promise to vote for the speedy enactment of a law which will put an end to this abominably wicked traffic in arms and munitions of war."

Declaring that there is no law by which the loan to the allies can be prevented members of the alliance pledged themselves to deposit their money only in such banks that will give binding assurance that they will not, directly or indirectly, participate in the war loan.

Cummins' Home Robbed.

Des Moines, Oct. 10.—Robbers during the night went through the residence of United States Senator A. B. Cummins here while the family slept and secured \$1,000 in cash and the family diamonds, value unknown.

STILL IN THE LAND OF MUD

Small Percentage of Improved Roads in the United States.

GREAT LOSSES TO FARMERS

Good Roads in Rural Communities Not Only Improve the Economic Conditions Therein, but the Social Conditions as Well—They Materially Affect the Spread of Education.

A little booklet written by S. M. Williams of Lima, O., points out the economic and social influences exerted by both good and bad roads.

"The public is gradually awakening to the importance of permanent road construction," states Mr. Williams in his booklet. "But with only 10 per cent of the public roads in the United States improved and many states with less than 5 per cent of improved roads we are still in the land of mud. Many sections of the country are opposing road improvement because of a lack of understanding of its value to their own communities."

"In rural communities one day in a week was set aside from farm duties for going to town. The farmer was satisfied to drive through the mud and over the rough roads. Unfortunately in many sections they continue to be satisfied with such road conditions, but in other sections the farmer knows better. He is demanding the same advantages enjoyed by his competitors in other sections and due to the building of good roads."

"In one county of Tennessee, before road improvement began, one bale of cotton was an average load for a two horse team. There are now 100 miles of improved roads in that county, and twelve bales is not an uncommon load, thereby increasing the earning ability of the team for the farmer twelve times."

"In another county of Tennessee the cost of delivering wheat from farm to railroad, a distance of ten miles, was reduced from 15 to 4 cents per bushel after their roads were improved."

"Careful investigation and comparison in the showing of the farmers' and other teams before and after road improvement disclose some remarkable results. In one case an increase of 280 and another of 233 per cent. Compare and consider this profit for the farmer with his small proportion of the road improvement cost."

"The United States department of agriculture estimates that the farmers of the United States are losing annually \$250,000,000 on account of the inaccessibility of their products at certain times of the year, due to bad road conditions."

"Investigation shows that there are many counties rich in agricultural products, but burdened with bad roads, where the annual incoming shipments greatly exceed the outgoing. With improved roads such counties could not only be self supporting, but could ship products to other markets."

"We who live in towns often fail to realize the influence of road conditions upon the social life of rural communities. It is only fair to say that the National Congress of Mothers and Parent Teachers' association, with its branches in forty states of the Union, is wielding a powerful influence for good roads. They believe that the wife of the farmer of moderate means, who rises at 4 to 5 in the morning, does her own cooking, washing, ironing and sewing, should be assisted in finding ways and means for intellectual improvement in order that she may bring up her family of boys and girls to be useful members of society."

"Experts have found that insanity is a social condition with a distinct relation to good roads. Two states were recently astounded by a report of an investigation made within their borders as to the causes of insanity. In both states the road conditions were miserable, and it was found that a large percentage of the insane were the wives and daughters of the farmers where there was little or no opportunity for social intercommunication, but whose lives were of monotony and loneliness, due to isolation on account of miserable road conditions."

"The building of good roads will relieve the isolation of these rural districts and give the inhabitants opportunity for a large socialization, which will eventually result in eliminating the unfortunate and pitiable conditions. Poor roads mean illiteracy or worse. In 1909 the percentage of improved roads in the New England states was 22.2 and the percentage of illiteracy was only 1.7. In the south Atlantic states the percentage of improved roads was only 6.7 and illiteracy 12. The excess of illiteracy in rural over urban population, due to a lower percentage of improved roads, showed for the south Atlantic states 400 per cent and 140 per cent for the New England states. In both of these comparisons only native whites of native parentage were considered. The percentage of illiteracy among the urban white population is estimated to be only nine-tenths of 1 per cent. Rural illiteracy among the same class of inhabitants is 600 per cent greater and due to the influence of bad roads upon the school and social lives of the rural population."

Odd Happenings In the Day's News

No more "What'll you have?" in Florida. New law forbids treating, free lunch and back entrances.

Hand painted fish in New York markets are worrying health inspectors, who say the coloring conceals decay.

"Dog walk" was new dance demonstrated by negro couple in Kansas City court, after which all concerned were fined \$5.

"Minnie" murmured in his sleep three months after marriage, caused Jersey man to be divorced. His wife's name is Mary.

After trying four glasses detective was unable to say whether it was beer, and New York court dismissed alleged excise violator.

"Pat pat" may supplant kissing in Huntington, W. Va., by order of the health board. To "pat pat" you merely pat her on the cheek.

YOUNG ROCKEFELLER HAS SUBSTITUTE FOR UNIONS.

If Plan Proves Successful Strikes Will Be an Impossibility.

A substitute for labor unions which, it is claimed, will make strikes an impossibility has been briefly outlined under a John D. Rockefeller, Jr., industrial plan. Within a short time, the young millionaire thinks, the attention of the whole world will be riveted upon Colorado to observe the working out of an industrial scheme entirely new.

The scheme virtually provides for a "United Republic of Labor and Capital," with a constitution, president, cabinet and legislative bodies. The walking delegate of the union will be relegated to the past, and any prospect of recognition by the Colorado Fuel and Iron company of the Mine Workers' union is completely lost. It is proposed to give the men something in place of the union which the company believes will be better for labor and capital.

Young Mr. Rockefeller declines to comment on his industrial plan, saying his scheme is too exhaustive and important to talk about haphazard, but that in due time he will issue a statement.

The plan provides for representation among the men, and meetings of the workmen are to be held at regular intervals. At these gatherings two men are elected by ballot who will act as a grievance committee. Genuine representation is aimed at, and no officer or salaried representative of the company may attend these meetings. The grievance committee elected by the ballots of the miners have full power to deal with the officials for the company.

The representatives take up the grievances with the officials directly responsible. If the matter is not adjusted satisfactorily the case is appealed to the general manager. In case of further unsatisfactory adjustment the grievance goes to David Griffith, appointed as mediator by young Mr. Rockefeller.

DANIELS PLEASED AT BIDS.

Shipbuilding Firms Prove That Nation Is Returning to the Industry.

Several weeks will elapse before the navy department awards the contracts for the sixteen submarines, bids for which were opened the other day. This became known when officials of the department acknowledged that they had followed a new plan in asking for estimates. This new plan is expected to call out new ideas in submarine construction, and the higher bidders may win the awards if they have something of value to display.

Secretary Daniels is said to have ordered that the invitation for bids for the new boats should be so phrased that only a general outline of the type of vessel is given. Conforming to type, the builders were allowed complete leeway as to the engines, boilers, motors and other machinery of the submarines. What the builders have evolved in working over the bids will be examined carefully by the department experts in the hope that some new idea of real worth will be discovered.

The department was distinctly pleased by the number of bids received. Never before have so many reliable shipbuilding concerns entered in the competition for the construction of the craft. This is accepted generally as meaning that the country is returning to the shipbuilding industry with a vim that promises much for the navy and the commerce of the United States.

REPAIR GUNBOAT PRINCETON.

After Striking Reef Ship Lay at Bottom of Samean Harbor.

The United States gunboat Princeton, which lay at the bottom of Pago Pago harbor for seventy days last year, arrived in San Francisco from the Samoan port. The Princeton will be taken to Bremerton, Wash., for repairs.

The gunboat, which was a station ship at Pago Pago while engaged in surveying Samoan waters, struck an uncharted coral reef July 16, 1914, and tore a hole four feet by twelve in the forehold.

U BOATS TRAPPED BY WIRE NETTING

Declared That Remaining Submarine Crews Are In Panic.

OVER 80 PER CENT LOST.

New Method Is Said to Have Resulted in the Sinking of Sixty-seven Since May 5—Underwater Craft Caught in Huge Nets of Strong Wire Dropped in Their Path.

The reason why the German government has consented to change its submarine methods is because over 80 per cent of its submarines have been destroyed and its underseas warfare brought to complete failure within the past two months, says the Providence Journal.

The Journal says it is able to print the full and accurate story of the manner in which the British navy has accomplished this work. The operations under the present method have lasted over a period of four months, and they would have been brought to a successful completion many weeks ago if the British naval authorities had realized that some of the mechanical contrivances made use of were not fit for the work.

Sixty-seven German submarines, twenty-eight of which are declared to have been of the newest and latest construction, have been sunk and their crews destroyed by the British navy since the fifth day of May. It is stated on positive authority that the full capacity of the German shipyards for underseas boats is not more than three a month, but that even if Germany were able to replace her submarines as fast as they had been destroyed the gravest situation she faces in regard to this method of warfare is the actual destruction of the morale of the officers and crews of such vessels.

Submarine Crews In Panic.

It is declared that while the sailors who man German submarines are brave and efficient as those of any nation in the world, the authorities have been unable to keep from them the facts with regard to the mysterious disappearance of dozens of submarines with their entire crews and that this condition has brought about a practical panic among all men in this branch of the service, who not only believe that when they leave the protection of their own waters they are going to destruction, but who have not understood how that destruction was being brought about.

For several months there has been considerable publicity with regard to the belief that transports from Great Britain to the coast of France have been protected from submarine attacks by pathways of wire netting stretched across the channel. It has been known that great quantities of wire have been shipped from the United States and that very large orders for similar material have been filled in British factories. This wire has not

been used in the manner suggested. The operations which have resulted in the practical elimination of the German submarine navy have all centered about the fact that the periscope of the submarine, particularly when traveling in seas that are rough or choppy, has a very greatly restricted range of vision. This range at the most in clear water is not more than one mile, except when there are vessels on the horizon using fuel which makes smoke, when the range of vision is increased to from three to five miles.

Drop Traps in Their Paths.

This fact has been taken full advantage of. The netting which has been used by the British navy for the past two months has been made of galvanized material with a fifteen foot mesh. This size has superseded both the nine foot and the twelve foot mesh which preceded it and which were found to be impracticable for the purpose. The netting has been cut into lengths of 170 feet with a depth of twenty-seven feet. On top of this netting are lashed great blocks of wood. Oil burning torpedo boat destroyers, vessels of great speed, have been used in pairs, running along slowly with these sections of netting stretched between them. The moment a submarine periscope is sighted the destroyers slow down at a distance of a mile or less, and as soon as the submarine's course is charted by the continuous movement of her periscope the destroyers get ahead of her path and cut away the lashings which hold the ends of the netting to the vessels.

It is declared that three times out of four, when this has been done, the submarine has run directly into this netting which, by the time the submarine reaches it, has sunk from eight to ten feet below the surface, and that with bows once entangled the submarine turns turtle and sinks out of sight.

At times the destroyers have run for several miles ahead of these submarines before dropping their nets, in order to make sure of the exact course of the enemy. Eight or ten submarines have escaped destruction, merely by accident, by changing their course after the netting has been let go. But the British naval authorities have been confident throughout that in no case has any periscope sighted the destroyers, which lie very low in the water and which leave no smudge of smoke behind them.

A Misplaced Letter.

The transposition of letters in the same word sometimes produces the most ludicrous results. In "The Still Hour," which was written by Professor Phelps, is the fine line "The stillness of the hour is the stillness of a dead calm at sea." A large number was printed and disposed of before it was discovered that "clim" had been printed for "calm."

The General Says:—

"There are some very good reasons why my business is bigger each year than it was the year before."

Some years ago asphalt roofing was sold at high prices because the volume was small and facilities were limited.

When the General entered the field he broke up the high price combine by taking advantage of all possible manufacturing economies, thereby reducing production costs to the minimum and at the same time making a roofing of unexcelled quality.

Eventually the General became recognized as the leader of the entire field, and today the best known and largest used brand in the world is

Certain-teed Roofing

The General's big success brought about an attempt by others to imitate his policies and prices, but they didn't have the General's wonderful facilities, nor his superior equipment, nor his big organization, and it was an economic impossibility for them to equal the General's quality and price. Consequently with the reduction in price there was a big reduction in quality, and these lower quality roofings began to be sold under labels that had formerly been used on better goods.

Today the market is flooded with low quality roofings, made to sell at cheap prices without regard to the service they will give.

When you roof your building with Certain-teed you have a responsible manufacturer's guarantee of 5, 10, or 15 years according to whether the thickness is 1, 2, or 3-ply respectively. This is your advance assurance that Certain-teed will give you at least a definite guaranteed service. Beware of guarantees without responsibility behind them.

Certain-teed products are used and well known all over the world. Consult your local lumber and hardware dealers. They will quote you reasonable prices.
